

Digital Camera Battery

Digital Camera Battery Capacity Tester **DCB4033**

UPC Code: 838098004033

This item works with the products listed below

This device allows the user to test the capacity of the Digital Camera Battery's internal cell. When the capacity of the Digital Camera Battery drops below an acceptable level the user can replace the cell. This prevents problems by having a battery go out in the middle of an assignment. This device can also be used to recondition some batteries to regain capacity.
